

## PE and Sport Premium Expenditure 2020/21

The PE and Sport Premium is an amount of money allocated to schools to improve the quality and breadth of PE and sport provision.

The 5 key areas that Larchwood is focusing on are:

- the engagement of all pupils in regular physical activity
- the profile of PE and sport is raised across the school
- increased confidence, knowledge and skills of all staff in teaching PE and sport
- broader experience of a range of sports and activities offered to all pupils
- increased participation in competitive sport

In **2020/21** we received a **£18,960 grant** and we spent this funding on the following provisions. They were supplemented by our delegated budget thus ensuring that we supported all of our pupils, so they continue to develop healthy, active lifestyles and increase their participation and enjoyment in PE and sport. There was no carry over due to COVID-19 for the year 2019-20

### Overall Impact

The overall impact this year of the PE and Sport Premium has been limited due to the impact of the Coronavirus restrictions and lockdown. This has particularly been felt with the fact the Shenfield Sports Partnership (SSP) has not been able to hold sporting events. However, despite this, we have seen increased sporting provision in clubs and higher participation. There has been an increase in the amount of sporting activity at lunchtime when children are outside due to the increased amount of resources. The additional resources we have purchased have meant more sports have been taught and children are getting better access to different sports.

### Sustainability

The school plans to continue to renew its sporting equipment and resources each year to provide children with a variety of opportunities. The improvements in the teaching of PE and in participation rates will continue as we participate in further competitions across the SSP.
